

EARTH STRIKE

GENERAL STRIKE TO SAVE THE PLANET

WHAT IS EARTH STRIKE?

We are a grassroots movement demanding immediate climate action from governments and corporations worldwide.

Since our inception in November 2018, we've racked up thousands of members in over sixty countries, along with endorsements from the IWW Ecology Caucus, Noam Chomsky, David Graeber, and many other prominent organizations and activists.

The most important issue of our time

We have until 2030 to avoid a 1.5° rise in global temperatures, which will cause:

- famine
- floods
- droughts
- wildfires
- diseases
- mass extinction

on a catastrophic scale.

The time to act is now, for the future of humanity.

OUR PLAN

Our protests, scheduled throughout 2019, will raise awareness for a

GLOBAL GENERAL STRIKE
beginning **September 27**.
