

We are headed for climate catastrophe.

We have until 2030 to avoid a 1.5° rise in global temperatures,
which will cause:

- famine
- floods
- droughts
- wildfires
- diseases
- mass extinction

on a catastrophic scale.

The time to act is now, for the future of humanity.

OUR PLAN

Our protests, scheduled throughout 2019, will raise awareness
for a **GLOBAL GENERAL STRIKE** beginning September 27.

The companies and politicians are destroying our planet.
But they are few in number,
and it is our compliance in the system that keeps them afloat.
